20th Decr. **Minute by the Hon. Mr. Eliott.**

Records his views on the scheme submitted for the expenditure of the sum assumed to be available for the purposes of education in the Madras Presy. confidently hopes the Hon. Ct. will not restrict the expenditure to a lac of Rupees per annum but will allow that sum in addition to the Interest upon the accumulated amount of the Pagoda funds appropriated to Native Education which at the end of Decr. 1851 was calculated at about 10 lacs & the undrawn balance of the grant of 50000 Rs. which exceeds 3 lacs, these with the interest upon them at 5 pr. cent he calculates at Rs. 57,500 pr. annum, and at 4 pr. cent at Rs. 54,000 - estimates if the Hon. Ct. will consent to double the present grant of Rs. 50000 pr. annum from the Public Treasury & to allow interest at 5 pr. cent on the funds above specified, the sum available to be 157,500 out of which he would not object to allow Rs. 50000 to the Presidency Institution. Thinks the proposal to found a Collegiate Dept. somewhat premature - but that it would be sufficient now to relieve the present Head Master from his duties in order that he may form a Collegiate class & instruct the few boys who at first will be qualified for it in all the subjects of study to be pursued by the class and to appoint an additional Master to the School upon an adequate salary - approves however of the whole scheme as an eventual plan - Is not sure that it will be necessary to import Head Masters from England - has no objection to the experiment being tried by allowing the Masters for 2 of the Schools to be engaged in England on the terms proposed by the Bd. & the other Schools he would place under Native Masters - would regulate the salaries of the latter on a scale similar to that of District Moonsiffs - gives his reasons for this measure, & approves generally of the plan of instructions in the Provincial Schools, but would add the mensuration of land. — 7th Jany. 21st Decr. **Minute by the Hon: Mr. Thomas.**
Confines his remarks to two points - the proposed Collegiate Classes and the 3d Professor of English literature and composition - the former he considers, for reasons assigned, wholly premature - Thinks that the sentiments of the Hon: Ct. conveyed in a despatch specified, strictly applicable in their spirit, to the proposition now under consideration - & "that it will be quite time enough" to establish such Collegiate Classes, when "some hundreds" of young men are familiar with the English language - and have received a sound but plain practical education - and the Univ: Bd. can select from a large body of fairly educated young men - those who possess superior intelligence and parts, and are qualified, therefore, for a college education - Trusts with the Hon: Mr. Eliott, that the Hon: Ct. will sanction an expenditure at the Madras Presy. at least equal to the funds appropriated for education in the other Presidencies in proportion to its population. 7th Jany. No. 66.

14th March	Minute by the Hon. Mr. Eliott. Records certain remarks on the objections raised by the Judges of the Supreme Court relative to the nomination of Mr. Burgess to act as Advocate General — Notices the several precedents on record alluded to in the Chief Secy's Memo. & thinks that, in the face of these, and in spite of the high authority of the Judges who sanctioned them, the present Judges will hardly persist in questioning the legality of such an appointment, the law being the same as when those precedents took place.	Ditto to 22d March No. 13
— " —	Minute by the Hon. Mr. Thomas. Concurs in the views recorded by the Hon. Mr. Eliott, thinks the precedents conclusive, and cannot see why the present Judges should desire to alter the usage, as no possible inconvenience can arise to the Public Service.	Do. No. 14

a plan and estimate for carrying off the sewerage which passes in the Great Drain & tunnel during the reform of the sewer on the plan sanctioned by the Hon. Ct, and at once to put the latter work in execution, also, to report immediately on the question referred to the Board as to the expediency of filling up the ditch which joins the Coomm river instead of forming an open masonry channel at a large cost - to provide for executing Col. Cotton's suggestion of covering the cesspool, and to report upon his proposal to erect a small engine at a cost of Rs 2000 to raise the sewerage of the Cesspool. - Promises to give his early attention to the various suggestions of Col: Cotton, contained in the printed report for providing a supply of water for cleansing Madras, and for domestic and other purposes - but, for reasons stated, suggests that the construction of the South sewer be commenced at once, irrespectively of that officer's project. - 14th June No. 10.

Vide President No. 11.

4th July Minute by the Honble Mr. Eliott - observes that the Report and Proceedgs. referred to by the President, have not been laid before Govt. but if it be desirable to transmit them to the Hon. Ct, cannot anticipate their being commntd to Govt. with that view.

Thinks it will be sufficient at present to relieve the funds of the Asylum from the payment now made to Govt. on account of the Medl. Officer and to appoint one of the Chaplains of the Presidency to afford his services to the Instn. without any payment from its funds — would for reasons stated, suggest that one of the Cathedral Chaplains be named for the duty — and that he be allowed a conveyance allowance — Records certain observations on the Commee's declining the liberal proposal made by Govt. in 1838, — and on the present arrangements proposed for procuring a Head Master and Mistress from England. —— 26th July No. 39

	properly left in the hands of Mr. Brown. – thinks it inexpedient, for reasons stated to do so, – and concurs with the Rt. Hon. the Presidt. that Mr. Brown should not be permitted to resume the charge of the Genl. Post Office at the expiration of his present leave.	4th Oct. No. 43	
29th Septr.	Minute by the Hon. Mr. Thomas. – Though fully concurring in the opinion that Mr. Brown is not the individual who should be selected for the duty of carrying out the reforms & details of management which will become necessary under the new Postal arrangements, would, were it not for the prohibition of the Hon. Ct. suggest the transfer of that gentleman to some other appointment. – Thinks it would be introducing a new principle to deprive an officer, who may not be qualified to reform a Dept. of his appointments & emoluments, because a party acting for him may perform the duties of the Special Office more efficiently. – would, in justice to Mr. Brown, refer the question for the orders of the Hon. Ct. and permit the present arrangement under which Mr. Williamson acts as P. M. G. to stand, Mr. Brown drawing the allowance of the Office, pending the receipt of the final orders of the Hon. Court.
